**be smart -
be part
of our team**

ATIS systems is an independent, privately owned company of long tradition. We are headquartered in Bad Homburg, near Frankfurt am Main, Germany, and for many years we have been working in the telecommunications sector, specialising in the fields of recording and analysis technology. A key technology partner for network providers, network equipment providers and law enforcement agencies, we are well-placed in the market.

For our team we are recruiting a

System Developer Java (m/f/o)

Your main task will be to further develop our products using Java SE. You will focus on the implementation of performant, horizontally scalable and stable back-end services. In the context of your work you will get into contact with various technologies. These range from classical database connections, frameworks and biometric analysis to search engines and a variety of network protocols and internet technologies. You will work in close coordination with your team leader and your fellow team members. Your role will also comprise the following tasks:

- active contribution to architecture reviews
- tool-based performance analyses
- evaluation of new technologies

Your qualifications - extensive know-how and hands-on experience:

☑ A completed university degree in computer science or a similar technical qualification
☑ You enjoy developing technically demanding Java components
☑ You are a team player, you are committed and interested in improving yourself
☑ Experience in multithreading, relational databases, ORMs (e.g. Hibernate), XML and JSON is a plus
☑ Knowledge in the field of search engines (e.g. Lucene/Solr/Elasticsearch) and document-based databases (e.g. MongoDB) as well as basic knowledge of Linux would be ideal

What we offer:

☑ Interesting assignments in international project teams.
☑ A safe job in a company of long tradition.
☑ A challenging position that allows for professional development
☑ A long-term personal perspective with an attractive, performance-based salary.
