

ATIS systems is an independent, privately-owned company of long tradition. We are headquartered in Bad Homburg, near Frankfurt am Main, Germany, and for many years we have been working in the telecommunications sector, specializing in the fields of recording and analysis technology. A key technology partner for network providers, network equipment providers and law enforcement agencies, we are exceedingly well-placed in the market.

For our team we are recruiting a

Linux and Network Administrator (m/f/d)

Your challenging new tasks include:

- administration and configuration of Linux systems,
- administration and configuration of network elements,
- creation of technical standards for firewalls,
- automation using Ansible,
- automated installation,
- virtualization,
- package management.

Your qualifications - extensive know-how and hands-on experience:

- a completed university degree in computer science or a comparable education in the IT field,
- practical experience working with Linux, networks and common automation tools,
- ideally knowledge of FreeBSD and AIX.

What we offer:

- Interesting assignments in international project teams.
- A safe job in a company of long tradition.
- A challenging position that allows for professional development.
- A long-term personal perspective with an attractive, performance-based salary.

Look to the future with us and apply via:
