

ATIS systems is an independent, privately-owned company of long tradition. We are headquartered in Bad Homburg, near Frankfurt am Main, Germany, and for many years we have been working in the telecommunications sector, specializing in the fields of recording and analysis technology. A key technology partner for network providers, network equipment providers and law enforcement agencies, we are exceedingly well-placed in the market.

As our business is growing steadily, for our team we are recruiting a

Solution Design Architect (m/f/d)

Your challenging new tasks include:

- creation of central concepts in the field of software architecture for the continued development of our products,
- presentation of those concepts to our colleagues and clients,
- functional and technical support of our developers during realization,
- analysis and appraisal of new technologies for the strategic development of our products,
- advising all departments concerning all issues in the field of software architecture.

The concepts include among others:

- functional descriptions or functional specification documents for describing the scope and requirements,
- architecture concepts for describing technical solutions across modules,
- data processing concepts for describing how data is stored,
- further concepts that may be presented directly to the customer.

Your qualifications - extensive know-how and hands-on experience:

- profound skills designing software architectures (>3 years) using the client-server approach,
- skills designing user interfaces are a plus,
- good or very good skills programming Java,
- good knowledge of the common frameworks and standards of Java development,
- good knowledge of database systems (Oracle in particular).

The benefits we offer - attractive and full of perspective:

What we offer:

- A modern and safe job in a midsize company of long tradition.
- A close team whose members work as a well-established unit.
- A challenging and interesting position with a lot of personal responsibility.
- Interesting options of continuing professional education.
- Flexible working hours, flat organization and a pleasant work climate.
- A long-term personal perspective with an attractive, performance-based salary.

Look ahead with us and send us your application (incl. your salary expectation and availability) via:
