

ATIS systems is an independent, privately-owned company of long tradition. We are headquartered in Bad Homburg, near Frankfurt am Main, Germany, and for many years we have been working in the telecommunications sector, specializing in the fields of recording and analysis technology. A key technology partner for network providers, network equipment providers and law enforcement agencies, we are exceedingly well-placed in the market.

For our team we are recruiting a

DevOps Engineer / Technical Integrator (m/f/d)

Your challenging new tasks include:

- Securing development in the context of source code integration
- Creation, maintenance and operation of virtualized build servers
- Creation and maintenance of build scripts
- Administration of systems that support development (such as Jira, git/gitlab, Jenkins, Nexus, etc.)

Your qualifications - extensive know-how and hands-on experience:

- ☑ Completed degree (e.g. computer science, electrical engineering) or similar education,
- ☑ Profound expertise in the administration and operation of Unix systems (Linux)
- ☑ Experience using git, automating processes and virtualizing servers
- ☑ Ability to learn quickly and work in a pragmatic and structured manner
- ☑ An ideal candidate also has
 - Detailed knowledge of build environments (Jenkins, Gitlab-CI, Bamboo)
 - Experience using backups, RPM monitoring, configuration management (Ansible/Chef/Puppet)
 - DevOps experience / experience working with development teams and / or customers
 - Programming skills using JAVA
 - Basic understanding of IT security concepts

What we offer:

- ☑ interesting assignments in international project teams
- ☑ a safe job in a company of long tradition
- ☑ a challenging position that allows for professional development
- ☑ a long-term personal perspective with an attractive, performance-based salary
