

ATIS systems is an independent, privately owned company of long tradition. We are headquartered in Bad Homburg, near Frankfurt am Main, Germany, and for many years we have been working in the telecommunications sector, specialising in the fields of recording and analysis technology. A key technology partner for network providers, network equipment providers and law enforcement agencies, we are well-placed in the market.

As our business is growing steadily, for our team we are recruiting a

Software Architect (all genders)

Your challenging new tasks include:

- creation, coordination, and realization of central software architectural concepts and documentation
- presentation of those concepts to our departments and clients,
- support of our departments concerning issues in the field of software architecture, in particular during the realization of the concepts
- analysis and appraisal of new technologies for the strategic development

The concepts and documentation include among others:

- architecture concepts for describing technical solutions across systems
- descriptions of functions or functional specifications
- data processing concepts for describing the processing and storage of data
- further concepts and technical descriptions, especially for direct presentation to the customer

Your qualifications - extensive know-how and hands-on experience:

- a completed university degree in (business) informatics or comparable experience in the IT field,
- profound skills designing software architectures (>3 years) using the client-server approach,
- very good skills programming Java,
- good knowledge of the common frameworks and standards of Java development,
- good knowledge of database systems
- very good communication and presentation skills as well as a very good ability to cooperate, a willingness to innovate, and persuasiveness.
- business-fluent German and very good knowledge of English

The benefits we offer - attractive and full of perspective:

What we offer:

- A modern and safe job in a midsize company of long tradition.
- A close team whose members work as a well-established unit.
- A challenging and interesting position with a lot of personal responsibility.
- Interesting options of continuing professional education.
- Flexible working hours, flat organization and a pleasant work climate.
- A long-term personal perspective with an attractive, performance-based salary

Look ahead with us and send us your application (incl. your salary expectation and availability) via:
