

Database Administrator Oracle (all genders)

ATIS systems is an independent, privately-owned company of long tradition. We are headquartered in Bad Homburg, near Frankfurt am Main, Germany, and for many years we have been working in the telecommunications sector, specializing in the fields of recording and analysis technology. A key technology partner for network providers, network equipment providers and law enforcement agencies, we are exceedingly well-placed in the market.

Your challenging new tasks include:

- Supporting the operation of Oracle 11g and 19c databases in a high-availability environment
- Planning new database installations
- Further tasks in this field:
 - Patches and upgrades
 - Backup and recovery
 - Monitoring
 - Reorganization and migration
 - Performance tuning
 - Trouble shooting

Your qualifications - extensive know-how and hands-on experience:

- A completed university degree in (business) informatics or comparable experience in the IT field,
- At least 3 years' professional experience in the administration of Oracle databases
- Knowledge of Linux and AIX administration as well as of SAN and storage environments would be ideal
- Good written and spoken German and English skills

The benefits we offer - attractive and full of perspective:

- A modern and future-proof job in a midsize company of long tradition.
- A close team whose members work as a well-established unit.
- A challenging and interesting position with a lot of personal responsibility.
- Interesting options of continuing professional education.
- Flexible working hours, flat organization and a pleasant work climate.
- A long-term personal perspective with an attractive, performance-based salary

Look ahead with us and send us your application preferably via email and including your salary expectation and availability.
