

## DevOps Engineer (all genders)

ATIS systems is an independent, privately-owned company of long tradition. We are headquartered in Bad Homburg, near Frankfurt am Main, Germany, and for many years we have been working in the telecommunications sector, specializing in the fields of recording and analysis technology. A key technology partner for network providers, network equipment providers and law enforcement agencies, we are exceedingly well-placed in the market.

### Your challenging new tasks include:

- Development and maintenance of software building and delivery processes
- Development and maintenance of artefact repositories
- Automation of processes

### Your qualifications - extensive know-how and hands-on experience:

- A completed university degree in (business) informatics or comparable experience in the IT field,
- Practical experience in the field of CI/CD (Jenkins, GitLab, Nexus)
- Familiarity with the use of automation tools and scrip languages (Ansible, Python, Shell)
- Skilled use of Git
- Experience in Linux administration and RPM building

### The benefits we offer - attractive and full of perspective:

- A modern and future-proof job in a midsize company of long tradition.
- A close team whose members work as a well-established unit.
- A challenging and interesting position with a lot of personal responsibility.
- Interesting options of continuing professional education.
- Flexible working hours, flat organization and a pleasant work climate.
- A long-term personal perspective with an attractive, performance-based salary

**Look ahead with us and send us your application preferably via email and including your salary expectation and availability.**
