

Software Test Engineer (all genders)

ATIS systems is an independent, privately-owned company of long tradition. We are headquartered in Bad Homburg, near Frankfurt am Main, Germany, and for many years we have been working in the telecommunications sector, specializing in the fields of recording and analysis technology. A key technology partner for network providers, network equipment providers and law enforcement agencies, we are exceedingly well-placed in the market.

Your challenging new tasks include:

- Creation of test specifications and test cases based on technical requirement specifications
- Preparation and execution of feature, regression and load/performance tests
- Execution of GUI-level and system-level tests based on previously created test cases
- Evaluation, analysis and documentation of test results
- Documentation of irregularities shown by the test
- Conception and creation of test data
- Reviews of concepts and user manuals

Your qualifications - extensive know-how and hands-on experience:

The following skills are a must-have:

- A completed university degree in (business) informatics or comparable experience in the IT field,
- Basic knowledge of testing software
- Reliable skills using the Microsoft products Windows, Word, Excel and Outlook
- Basic skills using the Linux operating system
- Good written and spoken German and English skills
- You must be a proactive team player with an interest in professional development

The following skills are a nice-to-have:

- Work experience (ideally in the field of telco/ISP)
- ISTQB Foundation Level or similar certification
- Skills using bug tracking tools (JIRA), test case management systems (TestLink)
- Virtualization software (VMware/VirtualBox)
- Programming skills using script languages (Bash / Python)

The benefits we offer - attractive and full of perspective:

- A modern and future-proof job in a midsize company of long tradition.
- A close team whose members work as a well-established unit.
- A challenging and interesting position with a lot of personal responsibility.
- Interesting options of continuing professional education.
- Flexible working hours, flat organization and a pleasant work climate.
- A long-term personal perspective with an attractive, performance-based salary
