

System Developer Java (all genders)

ATIS systems is an independent, privately-owned company of long tradition. We are headquartered in Bad Homburg, near Frankfurt am Main, Germany, and for many years we have been working in the telecommunications sector, specializing in the fields of recording and analysis technology. A key technology partner for network providers, network equipment providers and law enforcement agencies, we are exceedingly well-placed in the market.

Your challenging new tasks include:

Your main task is the development of our products using Java SE. The main focus is on the implementation of high-performance, horizontally scalable, and stable back-end services. In the context of your work, you will be faced with a multitude of technologies. These range from classical database connections to frameworks and biometric analyses as well as search engines and a multitude of network protocols and internet technologies. You work in close cooperation with the team leaders and team members.

Your role also includes the following activities:

- Active participation in architecture reviews
- Performance analyses using tools
- Evaluation of new technologies

Your qualifications - extensive know-how and hands-on experience:

- A completed university degree in (business) informatics or comparable experience in the IT field,
- Interest in developing technically demanding Java components
- You must be a devoted team player with an interest in professional development
- Experience and well-versed use of multi-threading, relational databases, ORMs (e.g. Hibernate), XML and JSON would be ideal
- Knowledge in the field of search engines (e.g. Lucene/Solr/Elasticsearch) and document-based databases (e.g. MonoDB) as well as basic knowledge of Linux would be ideal

The benefits we offer - attractive and full of perspective:

- A modern and future-proof job in a midsize company of long tradition.
- A close team whose members work as a well-established unit.
- A challenging and interesting position with a lot of personal responsibility.
- Interesting options of continuing professional education.
- Flexible working hours, flat organization and a pleasant work climate.
- A long-term personal perspective with an attractive, performance-based salary

Look ahead with us and send us your application preferably via email and including your salary expectation and availability.
