

System Developer Telecommunications (all genders)

ATIS systems is an independent, privately-owned company of long tradition. We are headquartered in Bad Homburg, near Frankfurt am Main, Germany, and for many years we have been working in the telecommunications sector, specializing in the fields of recording and analysis technology. A key technology partner for network providers, network equipment providers and law enforcement agencies, we are exceedingly well-placed in the market.

This is what we do:

- Java development with a passion, primarily using Java (SE)
- Implementation of interfaces with network providers
- Scalable components in a 24/7 environment
- Optimization of performance
- High availability
- Connection of databases

This is what we're looking for:

- Passion for coding
- willingness to familiarize yourself with telecommunications standards, e.g. VOIP (SIP, RTP) and ETSI
- Creativity
- Interest in new technologies
- Ideally, previous experience in the technologies we use
 - Multithreading with Java (SE)
 - Programming experience in the field of TCP/IP and, if applicable, UDP
 - Linux
 - SQL / Hibernate

This is what we've got to offer:

- Interesting and challenging tasks
- Hybrid work model
- Training opportunities
- Team work and team spirit
- Future-proof job

Become part of the team:
